The first step in finding out whether you might have bipolar disorder is to have an in-depth discussion with your healthcare provider about your symptoms and how your condition may be affecting you. Answering the questions on this form will help you do that. It will take about 5 minutes to fill out. It is not meant to self-diagnose, so please print the form and bring it with you to your next appointment.

Please answer the questions as best you can by putting a check in the appropriate box. Has there ever been a period of time when you were not your usual self and Yes No you felt so good or so hyper that other people thought you were not your normal self or you were so hyper that you got into trouble? you were so irritable that you shouted at people or started fights or arguments? you felt much more self-confident than usual? you got much less sleep than usual and found that you didn't really miss it? you were more talkative or spoke much faster than usual? thoughts raced through your head or you couldn't slow your mind down? you were so easily distracted by things around you that you had trouble concentrating or staying on track? you were much more energy than usual? you were much more active or did many more things than usual? you were much more social or outgoing than usual; for example, you telephoned friends in the middle of the night? you were much more interested in sex than usual? you were much more interested in sex than usual? you did things that were unusual for you or that other people might have thought were excessive, foolish, or risky? spending money got you or your family into trouble? If you checked Yes to more than one of the above, have several of these ever happened during the same period of time? Yes No	Mood Disorder Questionnaire
